

**Additional Responses to Questions Related to XL Center
Request for Qualifications and Expressions of Interest**

- 1. What is the total expected square footage for the redesigned XL Center site? What parcels are expected to be purchased to proceed with the redevelopment?**

SCI's concept plans, including demolition, slab and leasehold drawings, are now posted on CRDA's website.

- 2. What areas / sections of the XL Center arena are not ADA compliant?**

Any building areas addressed in the 2014 renovations were brought up to current ADA standards. The larger transformation project will bring the entire building up to current standards.

Interested bidders are invited to tour the XL Center and assess these ADA issues for themselves. Please contact Kim Hart at (860) 493-2925 to schedule a building walk-through.
